## Sapphire Blue<sup>®</sup> CB 115

### Product Description

■ Hermes Sapphire Blue CB 115 is a new paper backed addition to our large family of both cloth and paper antistatic products for use in the woodworking industry. The special Sapphire Blue ceramic aluminum oxide grain blend, along with a strong F weight backing combine to make this an excellent tool for coarse, intermediate and finish sanding operations. Specially designed for woodworking, Sapphire Blue CB 115 provides application benefits which include longer belt life, consistent surface finishes, cooler sanding temperatures and a cleaner work area. Additionally, the Sapphire Blue grain structure allows for repeated dry cleanings (glassbead type). This capability extends the life of Sapphire Blue CB 115 belts up to 1 1/2 times versus non-ceramic products, without affecting the finishing characteristics of the belt.

The overall results of these product features mean that Hermes Sapphire Blue CB 115 is considerably superior to conventional aluminum oxide paper backed belts.

### Product benefits

- Increased belt life
- Enhanced cutting action
- Consistent surface finishes
- Ceramic blend grain configuration
- Reduced dust on panels
- Cleaner work area

### Applications

- Primary sanding
- Intermediate sanding
- Finish sanding

Abrasives

### Hermes Sapphire Blue CB 115

Type	Sapphire Blue CB 115
Code	11523
Grain	A/O and Sapphire Blue
Bonding	Resin, incorporating special antistatic treatments
Grit range	P 60 - P 220
Backing	F-weight paper
Grain distribution	Closed coat

### Delivery forms

#### Belts

Widths up to 12 1/4"

#### Wide belts

Widths over 12 1/4" up to 62"

### Workpieces

- Cabinet doors and frames
- Hard and soft solid wood components and parts
- Laminated wood
- Solid and veneered table tops
- Door panels
- Moldings
- Pianos and musical instruments made of wood
- Wood office furniture
- Wood caskets
- Indoor architectural panels and trim

### Sanding machines

Stroke sanders, platen sanders, wide belt and cross belt sanders.

### Wide belt sanding machines

### Workpiece materials

#### Hardwoods

Beech  
Birch  
Elder  
Elm  
Hickory  
Maple  
Oak  
Poplar  
Tropical hardwood  
Walnut  
White ash

#### Softwoods

Cedar  
Cottonwood  
Fir  
Larch  
Limba  
Linden  
Pine  
Redwood  
Spruce
