

CB 444 Sapphire Blue Fibre Discs

Product

Hermes CB 444 discs feature a special Sapphire Blue ceramic grain and are available in all standard dimensions, flat or molded with a strong X or J weight backing. These discs deliver high performance and are ideal for a variety of light to heavy duty metal applications. CB 444 discs offer both higher productivity and lower operating costs.

Construction

Abrasive Grain: Sapphire Blue
ANSI and FEPA Graded
Backing: Vulcanized Fibre
Bond: Resin
Grit Range: CB 444 J - P 80 - P 100
CB 444 X - #36, #50
Grain Distribution: Closed Coat

Workpieces

Flat and contoured car and truck parts, sheet metal surfaces, welded items.

Advantages of CB 444 discs

1. Longer disc life
2. Fewer disc changes
3. Increased production
4. Lower abrasives costs

Applications

Metal grinding applications including blending and finishing of welded assemblies, flat or contoured sheet metal items, fast weld bead removal.
