

RB 306 J flex

Product

RB 306 J flex backstand belts are now available from our First Choice program. This type provides the flexibility and consistent finishes required in the metalworking industry. The high quality aluminum oxide grain assures long life and superior cutting action.

Construction

Abrasive Grain: Aluminum oxide, P - Graded
Backing: "J" weight flexible cloth
Bond: Resin over resin
Grit Range: P 60 - P 240, P 320, P 400
Grain Distribution: Closed Coat

Workpieces

Cast or fabricated metal items where a light flexible coated abrasive belt is required.

Advantages of RB 306 J flex

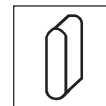

1. Sharp durable aluminum oxide grain.
2. Flexible backing for better conformity.
3. Consistent finishes.
4. Long belt life.

Applications

Blending, deburring and polishing on all metal types.

Forms

Belts -FE40

Dimensions available:
-widths up to 12"
-length depends upon the sanding machine

Type #: 30660

Joints: UBN (EB 01) overlap, EB30 (straight cut tape)

PB 18
