

RB 484 44 Z

Product

Hermes combines a heavy Z weight polyester backing with an upgraded zirconia alumina grain to create our new RB 484 44 Z. This formula provides a more durable, aggressive cutting, longer lasting product which may be used in both metal and wood applications. RB 484 44 Z is ideal option for reducing operational costs and increasing productivity.

Construction

Abrasive Grain: Zirconia alumina
Backing: Heavy Z weight polyester
Bond: Resin over Resin
Grit Range: +24, +36 - +120 (ANSI)
Grain Distribution: Closed Coat
Maximum width: 63"

Workpieces

Metal items including turbine blades, investment castings, orthopedic prostheses, golf clubs, aerospace castings and dairy industry equipment. Plywood, MDF sheets, lumber stock.

Advantages of RB 484 44 Z belts

1. Superior grit retention
2. Long lasting, fast cutting
3. Strong zirconia alumina grain
4. High strength Z weight backing
5. Increased stock removal rate

Machinery

Backstand, swingframe, wide belt sanders. Indexing flat finishers.

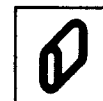

Forms

Narrow Belts
- FE 40

Dimensions Available:
- widths up to 12"
- length depends upon the sanding machine
Joint: EB 32 (tape/butt)

Wide Belts
- FE 41

Dimensions Available:
- widths 12 1/4" to 63"
- length depends upon the sanding machine
Joint: EB 32 (tape/butt)

Applications

Coarse and intermediate grinding of carbon steels, aluminum alloys, 300 & 400 stainless steel, high cobalt, high nickel and high chrome alloys. Planing and dimensioning of wood panels and lumber stock.

Type #: 48444

PB 30
