

SA 167 SK Rolls

Product

SA 167 provides the consistent results required in the finishing processes of furniture and other wooden items. This product is designed to meet the demands of industrial woodworking as well as individual wood crafters.

Construction

Abrasive Grain: Silicon Carbide, P - Graded
Backing: "A" weight paper, PSA coated
Bond: Glue with stearate coating
Grit Range: P 80 - P 150, P 220
Grain Distribution: Closed Coat

Workpieces

Primed, lacquered or other finished surfaces. Solid or assembled wood pieces after belt sandings. Workpieces may be of either wood or metal.

Advantages of SA 167 PSA Rolls

1. Reduction in wasted abrasives.
2. Resists premature loading and clogging.
3. Consistent surface finishes.
4. PSA backing eliminates clamping and wrapping of sheet onto equipment.

Applications

Sanding between coats of primers, lacquers and other types of finishes on both soft and hard woods. Primed metal surfaces before painting.

Forms

Rolls -FE11

Dimensions Available:
4 1/2" x 10 yards

Type #: 16705

EB 00

Sanding Machines

All pneumatic and electrical oscillating and vibratory sheet sanders.
