

# WS flex 16 Sheets

## Product

WS flex 16 sheets are used by hand or machine on wet or dry applications where flexibility is needed and tearing is not a problem. This product has an anti-slip backing treatment for safe hand sanding under wet conditions. Hand sand with full size sheets or cut to fit power sanders.

## Construction

Abrasive Grain: Silicon Carbide, P - Graded  
Backing: B weight waterproof paper  
Bond: Resin over Resin  
Grit Range: P 180 - P 2500  
Grain Distribution: Closed Coat

## Workpieces

Automotive plastic moldings, bumpers, side molding. Lacquered finished on furniture, pianos, violins and other wood items. Glass items including fine leaded crystal.

## Advantages of WS flex 16

1. Can be used wet or dry
2. Sharp high quality silicon carbide grain
3. Long sheet life
4. Consistent finishes

## Applications

Hand or machine sanding on lacquers, paints, glass and plastics. Polishing of marble, stone, and solid surfaces.

## Forms

### Sheets -FE 20
