

## Case History

Number: CH 40

Type: RB377 YX      Type Code: 37710

Description: Aggressive semi-friable aluminum oxide mineral resin bonded to a cotton/polyester blended backing in a closed coat configuration

Region: Southeastern, U.S.

SIC: 2431 Millwork

Account Manager: Lance Munson

Machine: 52" x 103" Heesemann LSM4 wide belt sander with a cross belt and two segmented pads

Workpiece(s): Interior doors with hardwood veneer faces

Application: Finish sanding prior to stain

Competitive Product: 3M 270DZ

Products Tested: 120 and 150 grit wide belts with EB31 joints

Test Results: Original testing with RB 316 ZOP resulted in tracking problems. RB377 YX was brought in and subsequently ran equal to the 3M product with no tracking issues. The RB377YX produced a better finish than the 3M product with noticeably less chatter left on the doors. A paid trial order was received.
