

CR 116 - Antistatic

Product

Hermes most recent addition to our product line is type CR 116. This upgrade adds to our large offering of both cloth and paper **antistatic** products designed for use in the woodworking industry. It also enables us to offer a product to the stainless steel industry for finish applications.

Construction

Abrasive Grain: Premium A/O & Ceramic
Backing: "F" weight paper
Bond: Resin over resin.
Grit Range: P 80 - P 180
Maximum manufacturing width: 62"

Workpieces

Hard or soft solid wood components and parts in the furniture industry; laminated wood; veneered tops; door panels; moldings; indoor architectural panels and trim; cabinet doors and frames; coffins; table tops; office furniture; pianos and musical instruments; stainless steel sinks.

Applications

Softwood: Spruce, fir, cotton wood, cedar and pine.

Hardwood: Beech, birch, maple, white ash, poplar, hickory, oak, walnut, cherry, bamboo

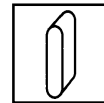

Steel: Stainless

Sanding Machines

Stroke sanders, platen sanders, wide belt sanders and cross belt sanders

Forms

Narrow belts -FE 40

Dimensions available:
-widths up to 12"
-length depends upon the sanding machine
Joints: ZZ (EB14) tape butt
UBN (EB01) overlap

Wide belts -FE41

Dimensions available:
-widths 12 1/4" and wider
-length depends upon the sanding machine
Joints: ZZ (EB12) tape butt
UBN (EB01) overlap

PB40

Advantages of CR 116

1. Enhanced cutting action
2. Longer belt life
3. Ceramic blend grain configuration
4. Consistent finishes throughout batch runs
5. Improved safety conditions
6. Cleaner work areas
7. Reduction in premature loading of belts
8. Cooler sanding over long periods
9. Withstands dry (glass bead) cleanings without grain deterioration
