

HC 135 SK-2 Self Stick Discs

Product

Hermes Abrasives, Ltd. is pleased to introduce HC 135 SK-2 B weight discs to our product line. Designed for both woodworking and metalworking, HC 135 SK-2 provides the flexibility and durability necessary for consistent surface finishes. These discs are available in both roll and individual disc formats.

Construction

Abrasive Grain: Aluminum Oxide, P-Graded
Backing: "B" weight latex paper with a pressure sensitive adhesive coating
Bond: Resin over Resin. Stearate coating applied to resist loading.
Grit Range: P 80 - P 320, P 400
Grain Distribution: Closed Coat

Workpieces

Wood-in-the-white assembled or solid pieces after belt sanding. Also suitable for metal surfaces.

Advantages of HC 135 SK-2

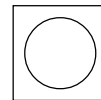

1. Resistance to loading and clogging
2. Tough aluminum oxide grain assures long life
3. Uniform surface finishes
4. Conformability to contoured as well as flat surfaces

Applications

Finish sanding on both soft and hard woods. Sanding of painted metal surfaces between coats or unpainted metal surfaces prior to primer application.

Forms

Discs -FE 50

Dimensions available:
- diameters of 3 1/2", 4", 5", 6", 8" *

Type #: 13503

EB 010 - single discs with release liner
EB 050 - discs on rolls

* 5", 6" & 8" discs available with dust extraction holes

PB 27

Sanding Machines

All pneumatic and electric oscillating and vibratory sanders.
